WHAT IS A MODULE?

We don't know who decided that 15 weeks of classwork was the best timeframe to learn a new subject, but we at Engler don't agree with that choice. We think that the way student's want to learn is changing.

That's why we put together modules. A module is a short, focused, and intense course built around a single subject. We believe focusing intently for a short amount of time is more valuable than a long class filled with busy work. Get-in, learn the subject, and get out. All of our modules are a single credit hour. It's our hope to provide a 'menu of options' in which you can select the topics that most interest you and where you are at in your entrepreneurial journey.

Many of these short courses are also taught by outside experts. Modules are an opportunity for us to bring in high-caliber industry and community leaders for you to learn from.

Don't mistake the shortness of these modules for lower-quality or lightness of work. These are intensive and focused courses that require a lot of work. But the idea is that you can get in and learn what you need quickly, and then move on!

We hope you find one that interests you!

HOW TO SIGN UP FOR A MODULE:

When signing up for a module on MyRed, search for "EAEP 496" in the enrollment search bar. When you click on EAEP 496: Independent Study, it will bring up all the module offerings. No permission code is required.

If you'd like to sign up for a module for non-credit, please email Michelle.

If you have any trouble with the process, Michelle would be happy to help you!

EXPLORING THE WORLD OF ECOMMERCE

We all know that having an online presence has become an industry standard. We also know that it can play a significant part in the growth of our company. But how do we get started creating and managing our eCommerce channel?

We will go over the different platforms available to create your eCommerce identify, like Amazon, Etsy, and Shopify to name a few. Understanding the pros and cons for each will help you identify the best platform for your products.

Once you have your platform decided on, then what? We will explore what managing an eCommerce website looks like, how to market on a budget, and focus on the things that matter to your customers.

We will dive deeper into understanding what motivates your customers to purchase your products and how to use that information to influence towards those buying decisions.

Finally, we will learn how you can leverage partnerships and influencers to further expand your reach on the web.

MISSION IMPOSSIBLE

Time and commitment management for high-achieving, entrepreneurial students

College is... overwhelming.

Between coursework, Greek life, intramurals, football games, studying, becoming an entrepreneur, managing time and commitments is incredibly challenging. The sheer number of opportunities is paralyzing.

And passionate, driven students can end up not getting what they really want or need out of college. How do you know you're making the most of it? And where do you make time to start a business?

In this critical class, we step out of the whirlwind and look down on your college life and commitments to date. We'll make order out of the chaos, and you'll walk away from this class with a system, process, and tools to manage any and all of the commitments college (and life) throws your way.

What You'll Learn

- You'll walk out of this class feeling confident and with a working knowledge to manage the many commitments on your plate – and equipped to use those tools throughout the rest of your life
- Why it's so hard for modern students (and employees) to focus and how to grow your focus muscles
- How to break through FOMO and make difficult decisions on what to focus on
- How to balance being multi-passionate and focusing on one thing at a time
- Focused, 1:1 coaching through your specific challenges
- The hidden tension between adding more and removing things from your life

Who Is This Course For?

- If you feel like there's way more that you want to do than you have time for
- If you feel like there's just not enough time in the day to do all you want to do
- If you struggle to manage both your course load and other commitments (like starting a new business)
- Multi-passionate, driven, hungry, and/or high achieving students

ROADMAP

Discover your Entrepreneurial Pathways

An entrepreneurial life is founded on action where people take the helm and set a course into uncharted and uncertain waters.

Students will identify and resolve **barriers** that prevent or reduce the expression of their entrepreneurial capacity, build a plan that promotes both professional and personal **growth** while perfecting the use of tools and techniques designed to create **vision, focus, and impact**.

Design thinking is a process for creating exceptional products, services, processes, or creative outcomes. We help you take the principles of Design Thinking and put them to work on your own life.

By the end of our four weeks together, you will have created three (or more) odyssey maps of various alternatives to creating a life that is both personally and professionally joyful!

- Those who refuse to settle for the ordinary.

GEAR UP

Problem Observation, Business Ideation, and Fundamental Pitching.

Every great business started as a simple idea. But how do you find that one idea that has the potential of growing into a real business?

It's all about spotting opportunities and then thinking outside of the box to come up with actionable ideas.

The ability to spot and act on business opportunities is fundamental to entrepreneurship. This is not a talent, it's a learned ability – but it can be learned quite quickly.

In this experiential, action-oriented, and highly focused module we'll dive into the foundational skills needed to start your own business. We call it "Gear Up," because we want to equip you with the tools you need as an entrepreneur.

We'll cover the structure for any time of business pitch, the mindset needed to build high-powered brainstorming sessions, and the understanding of how to find business opportunities anywhere.

You'll leave class with at least 50 business ideas to jumpstart you towards becoming an entrepreneur. Gear Up, it's time to get moving!
